DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 6-8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The recitation of "said first and second gear teeth" in lines 18-19 of claim 6 lacks antecedent basis.

Claim Rejections - 35 USC § 102

3. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

4. Claims 6-8 are rejected under 35 U.S.C. 102(b) as being anticipated by Genter et al.

Genter et al. discloses in figures 10, 11B, and 12B a gear wheel construction comprising a first gear wheel portion 570 having first half teeth; a second gear wheel 560 portion having second half teeth; and adjustable coupling means including screws 590a, 590b to lock said second gearwheel portion relative to said first gear wheel portion; said adjustable coupling means passing through enlarged recesses 569 in said second gear wheel portion and engaging threaded recesses 579 in said first gear wheel portion; wherein said first gear wheel portion and said second gear wheel portion are spaced from one another so as to form teeth of said gear wheel. Genter et al. further discloses in figure 10, said second gear wheel portion being able to rotate about said first gear wheel portion on a rotary axis 554 of said gear wheel.

Response to Arguments

5. Applicant's arguments with respect to claims 6-8 have been considered but are moot in view of the new ground(s) of rejection. Genter et al. clearly discloses the present invention as claimed. The second gear wheel portion is clearly coupled about said first gear wheel portion as broadly claimed in claim 6. The limitation "about which" in line 4 of claim 6, limits the second gear wheel portion to be coupled near the first gear wheel portion.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
